## Siblings

Pray that **siblings** are able to remain together while in foster care in safe and encouraging environments within your community.

Pray that **more families** in your state will feel lead and prepared to adopt sibling groups.

Pray for the **children** of foster parents in your community that they would respond to the needs to the kids that come in and out of their home with compassion and understanding.

---

“

*“My brothers came to us from foster care and then not long after, we also brought their sister, their biological sister into our family...For me as a child, this was very normal. This is just how our family was built. I never thought anything of it and I never thought I would make a profession of it... But then when I moved to Washington, DC and was working at an advocacy organization, God really started to steer my heart for kids in foster care, so I started to volunteer through our church.”*

## Health Care Professionals

Pray that **health care professionals** at local hospitals would have the time and resources needed to holistically care for children in foster care.

Pray that **God** will reveal to doctors and nurses the specific needs of children in foster care and that they will make wise decisions as they plan out care.

Pray that **God** would raise up more doctors and nurses in your area who are passionate about using their gifts and profession to bring healing and hope to children in foster care.

---

“

*“As a Mother-Baby nurse, my job is usually full of joy as parents experience new life with their infants. But, sometimes I care for infants who will enter foster care as soon as they leave the hospital. When I see those bundled babies alone in our nursery, my heart breaks because I know that their first few months of life will not be easy. So I hold them a little tighter, rock them to sleep, whisper words of love into their little ears, and then cry out to our God that He might protect them and bless them.”*

-Sarah Rooker, RN
